Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended.

Certain monetary amounts, percentages and other figures included in this presentation have been subject to rounding adjustments. Certain other amounts that appear in this presentation may not sum due to rounding.

All statements (including forward-looking statements) contained herein are made as of the date of this presentation and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. Undue reliance should not be placed on these forward-looking statements.

To the extent available, the industry, market and competitive position data contained in the Information come from official or third-party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. While the Company believes that each of these publications, studies and surveys has been prepared by a reputable source, none of the Company or any of its respective Representatives has independently verified the data contained therein. In addition, certain of the industry, market and competitive position data contained in the Information come from the Company's own internal research and estimates based on the knowledge and experience of the Company's management in the industry.

While the Company believes that such research and estimates are reasonable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change, amendment, revision and correction without notice. Accordingly, reliance should not be placed on any of the industry, market or competitive position data contained in the Information.

The Company will not be registered in the United States as an investment company under the U.S. Investment Company Act of 1940, as amended. Neither anything comprising the Information, nor any copy of this document, may be taken or transmitted into the United States, Australia, Canada or Japan or to any securities analyst or other person in any of those jurisdictions. Any failure to comply with these restrictions may constitute a violation of United States, Canadian, Australian or Japanese securities laws. This document and the Information are also not for publication, release or distribution in any other jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction nor should they be taken or transmitted into such jurisdiction and persons into whose possession this document and the Information come should inform themselves about and observe any such restrictions.

This presentation contains certain financial forecasts. These projections are for illustrative purposes only and should not be relied upon as being necessarily indicative of future results. Projections are inherently uncertain due to a number of factors outside of the Company control. Accordingly, there can be no assurance that the prospective results are indicative of future performance of the combined company after the proposed business combination or that actual results will not differ materially from those presented herein. Inclusion of the prospective financial information in this presentation should not be regarded as a representation by any person that the results contained in the prospective financial information, or results approximating those contained herein, will be achieved.

This presentation also includes certain projections of non-IFRS financial measures. Due to the forward-looking nature of these projected measures, no reconciliation of the forward-looking non-IFRS financial measures to the most directly comparable IFRS financial measures is included in this presentation, because, without unreasonable effort, the Company is unable to predict with reasonable certainty the amount or timing of non-IFRS adjustments that are used to calculate these forward-looking non-IFRS financial measures. The non-IFRS financial measures included in this presentation may not be comparable to similarly-titled measures presented by other companies.

# Strong Safety Culture

Without safety, nothing else matters

**Lost time injury frequency increased during Q1 2026 as Construction and Mining crews adjusted to the increasing intensity of activity in their respective areas**

**An emphasis on personal responsibility and safety training drove a downward trend in LTIF, with no LTIs recorded in March**

**Project-to-Date LTIF remained relatively unchanged at approximately 3.2 LTI per million man-hours.**
